The above is firnished by the a-sociated Press, an association organized for the purpose of sending out a plain statement of facts without political bias. But it seems that the Nashville reporter of this association has gone beyond the rules and intruded his political notions by applying the word "repudiation." The Herald was opposed to the Hawkins-Wright party and favored the Wilson party; it opposed the Hawkins-Wright party; and favored the Wilson party; it opposed the Hawkins-Wright party; measures to settling the state debt, and stood boldly out in defense of the p-ople and against the drunken, gambling bribe-giving lobbyists who hatched the scheme whereby hundreds of thousands of dollars were made on paying something over \$15,000 for one vote. These be a nice set of fallows to cry out "repudiation" as they do above as plainly as though each one of them had signed his name to it. Yes, the Herald is 'snowed' under probably. But the fact has no political significance whatever. The above is furnished by the a-sociated the fact has no political significance what-ever. Clearinghouse Report. 

The Popular Judgment.

It has been justly remarked that the popular judgment, deliberately made up, is correct and reliable. It stamps with its own peculiar seal whatever it established on a firm foundation. The really meritorious article finds favor at first, but slowly and with many rebuffs; its inherent virtue continually asserts itself; its elasticity rebounds higher with every check, until it reaches the height of favor to

which it is entitled. Burnett's Cocoaine for the hair and Burnett's Standard Flavoring Extracts for cooking purposes are articles in point. They have been before the their hundreds; then their thousands.

These, together with Burnett's foreign countries.

They are of such admirable make as to combine substance with elegancethe supply of a genuine want with an appeal to the imagination in the poetry of their composition. And for these reasons Burnett's Preparations will enjoy an ever-increasing sale, and an ever-brightening reputation.

The Health of a Star Route Ring. ster.

special to the Courier-Journal ! WASHINGTON June 1 .- Dorsey has recovered. Finding that the indict ments were not to be forthcoming this week, he has plucked up courage to come out of his darkened chamber for a season. To-day he visited friends about town; they exhorted him to keep a stiff upper lip and to affect courage, though he had it not. He promised to try. He looks nervous and anxious; he is very bitter toward the press of the country, and especially those papers which were once filled with praise of himself and his deeds. He is, of course, under surveillance.

THE CHICKS AND PORTERS.

Some Talk of Their Meeting in Huntsville, After All.

A Hearty Welcome in Store for Them.

Huntsville Independent, 2d.1 The Porter Rifles captured the grand military prize in Nashville, last week, over three crack companies, including one from New Orlean. The Chickasaw Guards, who were down on the bills for a contest with the Porters in Huntsville, one rainy June day of several years ago, were not participants in the contest at Nashville; so, these two rival organizations have never, since that memorable day of failure in Huntsville, measured strength with each other. They shouldered their guns and left Huntsville, each company full of the thought that it was superior to the other in all the maneuvers of the company. But the disputed superiority remains to this day an unsolved problem. The "Chicks" have since then had a triumphal tour over the northwest, conquering all contending arms. The Porters, too, have had their victories, and both companies are to-day in fine feather, ready to enhave met, at different times, quite a number of the members of the two companies and they always expresed themselves as desirous of "having out" the original programme as arranged to take place in Huntsville several years ago. They thought, too, in each instance, that they could not afford to meet each other unless the meeting took place in Huntsville, where they had been so hospitably treated, and where they had disap-

pointed a large, expectant crowd. We are glad to learn that there is We are glad to learn that there is a proposition to bring these companies together again in Huntsville, to contend for a handsome prize. We can assure them that our city will give them a hearty welcome. We will give them a splendid ball; we will show them the loveliest daughters (their own sweethearts elsewhere accepted) and the most courteous sons that they have seen since they were here before have seen since they were here before. If they cannot arrange to meet earlier. t would be a splendid arrangement to have them meet during our fall fair. But we will not dictate the time. If they will only come, we will leave the time of coming to them. Now, gentlemen, let us hear from you.

Diamonds in South Carolina.

SENECA CITY, S. C., May 28 .-There has been much excitement in mining has been carried on to a greater or less extent in this vicinity. Some two or three years since Colonel John Cochran mined quite extensively, with what success, was not generally known.

Some two weeks since Mr. Joseph Blanny, hailing from England, comes to Seneca on his way from western North Carolina, prospecting for mica, and was induced to go down and look around where Colonel Cochran had been mining for gold. He went to panning on a farm adjoining the Cochran mine, and was rewarded by washing out several diamonds. He sent one of them to Tiffany & Co., of New York, and one of their experts came out and pronounced them genuine straw colored diamonds, equal to the African diamonds. Mr. Blanny has purchased 800 square feet from the owners of the land for \$2000, and proposes to go regularly into the business. not as a stock company, but on his own

Carfield for Two Terms. Special to the Courier-Journal.?

WASH'NGTON, June 1.- Last Feb. ruary, at a time when talk and specuation over the coming cabinet selections were rife, Senator Allison, of Iowa, whose name was frequently spoken of in connection with the secretaryship of the treasury, said to a friend: "I do not think it would be a proper thing for any man to accept a cabinet position who would, from the beginning of the administration, be opposed to a second term for President Garfield." During the same month, one of the most prominent re publicans of Missouri, a man of nation al reputation, had several conferences with Mr. Blaine, and he came from those conferences thoroughly convined that the policy of the president and of his secretary of state, from the beginning and thoroughout the first term, would be so shaped as to effect, if possible the renomination and re-election of General Garfield.

There is every reason to believe that this is the theory on which the administration is now run. There can scarcely be a doubt about it. The frequent assumption that Blasne, as the master spirit of the administration, is busily engaged in laying the wires for his own nomination in 1884, is plausible, but it is altogether fanci-The administration is to be a Garfield second-term administration.
